

# What's on this week.....

**Tomorrow's  
Engineers  
Week**  
5-9 November 2018

<p><b>Monday</b> In the Library</p>	<p>Come and meet employees of the RAF to talk about what a normal day looks like, what it is like to join and how technology and engineering is used in day-to-day life.</p>		
<p><b>Tuesday</b> In Textiles2</p>	<p>You all have heard of Sky, but come and meet Sky's engineers to see what happens behind the scenes, and how technological advances means faster internet and better TV.</p>		
<p><b>Wednesday</b></p>	 <p><b>*Year 10 Only* 10.30am-11am</b> The Big Assembly is an annual online viewing for schools and ordinary people around the UK. It is an interactive assembly, with real engineers taking part in a Q and A.</p>		<p>Now is your chance to play with fire! Science experiments with <b>Mrs Kaur in Lab 6</b> is sure to make your day light up.</p>
<p><b>Thursday</b> In the Library</p>	<p>Matt will be joining us to discuss his personal journey through school, university and then finally into the world of engineering. Matt now works for Uniper, one of the top 30 worldwide electricity generators, as a Chartered Mechanical Engineer.</p>		
<p><b>Friday</b> In the Library</p>	<p>Ever wondered what it takes to be a space engineer? Whether that's remaining safe on the ground or venturing into Space, Sophie talks us through how and why engineering is used to get us out of this world!</p>		

**For lunch workshops – bring your lunch! Squash and Biscuits provided!**
